REASONS FOR ALLOWANCE

1. Claims 16-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 16 recites spherical particles consisting essentially of a yttrium compound or a lanthanide-containing compound and having a breaking strength of at least 10 MPa and an average particle diameter of 15 to 80 microns.

The rejection of claims 1-15 (which directly correspond to new claims 16-30) under 35 U.S.C. 102(e) as being anticipated by Tsukatani et al. (US 6,576,354 B2) was withdrawn given that the Applicants have perfected their right to foreign priority.

Furthermore, the rejection of claims 1-15 under 35 U.S.C. 102(b) as being anticipated by Tajima et al. (US 5,061,560) was withdrawn in light of the showing, in the Declaration filed on February 3, 2005, that the breaking strength of the particles disclosed by Tajima is not inherently at least 10 MPa and is in fact different than that of the claimed particles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
